

Invitation to take part in PATH2DEA survey to identify barriers and drivers of digitalisation in agroecological and/or organic farming

Are you an agroecological or organic farmer or are you an advisor or producer organisation/association working with agricultural producers active in agroecology or organic production? If so, then we would like to invite you to help us identify the barriers and drivers of digitalisation in agroecological and organic farming.

Please share your experience from the field by answering this 15-minute survey especially adapted to your role. Our goal is to explore possibilities to adapt digital tools to user needs and increase their uptake and use for sustainability.

To fill the survey please click below:

I am a farmer

I am a producer organisation/association

I am an advisor

Please fill the survey by **31 August 2023** at the latest.

Your answers will be treated confidentially and anonymously. The results will be available on the [Path2DEA website](#) in January 2024. You can also register to our [newsletter](#) to follow our project's activities.

If have any question about this survey, you can contact: lea.minier@vegepolys-valley.eu

Best regards, your PATH2DEA Team

About PATH2DEA: PATH2DEA is a 3-year EU funded project. The potential of agroecological farming systems to master many of today's challenges to the environment, economy, health, and society can be significantly promoted by coupling with digital tools and technologies. PATH2DEA is committed to unlocking digitalisation's catalysing power to foster European agriculture's transition towards enhanced sustainability. It builds on farmers' competences and views and match them with the rich repertoire of digital solutions already available for agriculture, aimed at tailoring digital technologies to users' needs and fostering wide-range adoption of digital agroecological farming in the EU and associated countries.

PATH2DEA has received funding from the European Union (Grant no. 101060789) and the Swiss State Secretariat for Education, Research and Innovation (SERI) (Grant no. 22.00535). Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union, European Research Executive Agency (REA) or Swiss State Secretariat for Education, Research and Innovation (SERI). Neither the European Union nor any other granting authority can be held responsible for them.
